# Benefits

OF COBBLE MODULAR SERIES

### Resistant to Thermal Shock

Won't break due to gradual or sudden temperature changes (-400F — 2100F).

### Cost-Over-Life Savings

With a 60+ year life expectancy, our pavers provide a low life cycle cost analysis.

### UV Resistant and Colorfast

Won't fade from UV exposure, retains original color over product life.

### Made from Natural Raw Materials

Sourced locally within 500mi of our production facility, lowering our carbon footprint.

### Resists Microbial Growth and Damage

Unaffected by moss, mold, and verdigris.

### Available in a Broad Range of Styles

Styles range from stone, concrete, or wood looks in a variety of sizes.

### Unmatched Durability

Stronger and more resilient than any alternative paving solution.

### Scratch and Stain Resistant

Scratch and stain resistant, outdoor porcelain pavers can handle high traffic areas.

### Virtually No Maintenance

Once installed, pavers require minimal upkeep and are easy to replace.

### Frost Resistant

Unaffected by frost or freezing since our pavers don't absorb water.

### Easy to Clean and Sanitize

No harsh chemicals needed to clean, nonporous material is resistant to stains.

### Slip Resistant and Quick Draining

Perfect for pool decks, terraces, or even simple garden paths.

### voc. Free

Emits 0 VOCs to protect occupants and environmental health.

### Versatile Installation Applications

Install over grass or gravel, mortared in or simply laid on the ground.

### Easy To Install

Requires minimal materials and effort to install nearly anywhere.

# PACKAGING SPECIFICATIONS

---

BODY : **VITRIFIED BODY**  
RECTIFICATION : **NON-RECTIFIED**

SIZES	THICKNESS (MM)	PIECE PER BOX	WEIGHT PER BOX ( APPROX )	SQM PER BOX ( APPROX )	SQFT PER BOX ( APPROX )
300X300MM-2PCS	15 MM	6 PCS	18 KG	0.56 SQM	6 SQFT
150X300MM-2PCS					
450X300MM-2PCS					

\*WEIGHT PER PALLET DOES NOT INCLUDE PALLET WEIGHT ITSELF. All other sizes will be packaged as ordered.  
Please contact Mitco Customer Service for packaging information.  
Minimum grout size recommended = 5 mm (or approx. 3/16") If staggered tile placement,  
we recommend using a 30% offset. If specified brick pattern with 1/2 pattern mandatory, a bigger grout is  
recommended to hide imperfections of installation (minimum 1/4").
